About Us

The First Annual **Florida's Largest Disco Party** is a charitable event hosted and founded by local philanthropic business owner Michael Nichols, alongside a powerhouse committee of local business owners and professionals. This exciting event will take place at Abacoa Golf Club (105 Barbados Dr, Jupiter, FL 33458) and will benefit two local charity organizations, **Els for Autism** and **Quantum House**. Join us for an unforgettable evening filled with drinks, delicious food, dancing, raffles, and the chance to connect with the best business professionals in the area — all for an amazing cause!

Inspired by the World's Largest Disco in Buffalo, NY, which began in 1979, we expect approximately 350 local professionals — including doctors, lawyers, business owners, athletes, local celebrities, and other charitable professionals — to attend the **Florida's Largest Disco Party** on February 22, 2025. With your support and the anticipated attendance, our goal for this inaugural event is to raise over \$100,000 for these important local charities. We are confident that, together, we can achieve this goal!

Disco Committee Members: Michael Nichols (Founder), Michelle Bacon, Greg Cohen, Vincent Cuomo, Jessica Embleton, Coleman Gogan, Chad Nelson, Joerg Pretzsch, Eoghan O'Connell, David Schultz, Cherryl Cannon (Event Director), and Olivia Lenard (Intern)

This event will provide vital support and funding to the participating charities:

The global mission of Els for Autism is to transform the lives of people with autism and those who care for them through lifetime services and collaborative partnerships. They envision a world of limitless possibilities for individuals with autism and their families.

Quantum House is a caring and supportive home that lessens the burden for families whose children are receiving treatment in Palm Beach County for serious medical conditions. By providing a safe and nurturing environment, Quantum House allows families to focus on what truly matters—their child's health and recovery.
